

"I Have a Dream"[®] – East Palo Alto TB TEST INSTRUCTIONS

As mandated by California state law, all volunteers working at a school site must have a TB test.

If you've had a TB test in the past 4 years...

- Simply call your doctor to get a letter of verification. You may fax (650-328-3214), email (ryoung@ihadepa.org) or mail this letter Rachel Young, Program Coordinator for IHAD-EPA (please see address information in the next section).

If you have NOT had a TB test in the past 4 years...

- You will need to get one. Results are obtained from a skin test. **After you have been given the test, you must return to the medical center/clinic 48 hours later in order for your results to be read.** Please see the list of area clinics at the bottom of this page.
- Please fax (650-328-3214) or mail the results to IHAD-EPA:
Attn: Rachel Young
"I Have a Dream" Foundation
c/o Stanford New School
2033 Pulgas Ave
East Palo Alto, CA 94303

If you test positive for TB...

- If you have had a TB test in the past, you may test positive. If this occurs, you must give IHAD-EPA a copy of your chest x-rays, showing that you do not have active TB.

NOTE:

- If the cost of a TB test is a burden for you and you are unable to make it to one of the free testing locations (see the list of locations below), please talk to Emma James, Volunteer Coordinator of IHAD-EPA, about reimbursement from HAD-EPA.

If you have questions...

- Please contact:
Rachel Young
Program Coordinator
